

Farm Livin' [🐾]is the Life for Me

Barn homes needed...

Barn Cats help to earn their keep by:

- Controlling the rodent population
- Reducing your need to use mouse traps or poisons
- Saving you money on feed grain spoilage or loss

SpokAnimal is serving as a resource for both shelters and farms in need. When a trapped cat comes in, if there are farms available, we will sterilize the cat (if it has not been done previously) and place it in a welcoming barn. This program helps area farms and helps save the lives of cats who are at risk in the shelter.

If you have a barn, please call or email— let us know how many barn cats you are able to provide a home for!
